1 PURPOSE

• The purpose of this guide is to assist taxpayers with the Help-You-eFile (HYEF) function on eFiling.

• This guide in its design, development, implementation and review phases is guided and underpinned by the SARS values, code of conduct and the applicable legislation. Should any aspect of this guide be in conflict with the applicable legislation the legislation will take precedence.

2 INTRODUCTION

• Help-You-eFile is a service on the SARS eFiling website that allows you, the taxpayer, to interact with a SARS agent while the agent shares the displayed view of your eFiling profile screen.

• This service allows the SARS agent to identify the problems you’re experiencing and to help you resolve these.

• A Help-You-eFile session can only be initiated by you and is available for the following functions:
  - Individual income tax return
  - Statement of account
  - Notice of assessment (ITA34)
  - Tax calculator
  - Payments
  - Password reset
  - Change own password
  - Returns Issued
  - Returns History

  - Additional Payments
  - SARS Correspondence
  - Disputes

  - Additional Services
  - Registration

• Once you select the HYEF option on the website, you’ll have to call the SARS Contact Centre on 0800 00 7277 and enter the unique session ID on the integrated voice response (IVR) for case enquiry (option 2), income tax enquiry (option 3) and the HYEF (option 5) or provide the unique session ID to the SARS agent when you have been transferred to an agent to join the Help-You-eFile session.

• The Help-You-eFile system works by keeping the SARS agent's internet screen in sync with yours.

• The SARS agent can only view your screen and point to or highlight text fields and information on the active eFiling screen on your computer.
Note however that the SARS agent will not be able to control or update your eFiling screen, furthermore he/she will not be able to view sensitive information (e.g. login name; password; banking details and payment reference numbers). Additionally your desktop and files will not be accessible to the SARS agent.
