1 PURPOSE

The purpose of this document is to assist clients to register for eFiling and manage their eFiling profiles.

This guide in its design, development, implementation and review phases is guided and underpinned by the SARS values, code of conduct and the applicable legislation. Should any aspect of this guide be in conflict with the applicable legislation the legislation will take precedence.

2 INTRODUCTION

The vision of SARS is to be an innovative revenue and customs agency that enhances economic growth and social development. This is in line with the legislative mandate of SARS which is to collect revenue and ensure compliance with tax laws. eFiling enables SARS to achieve its mandate by being a service channel for the collection and administration of all national taxes, duties and levies.

One of the issues that emerged from the SARS customer satisfaction research is that the public often dreads standing in long queues, filling in paperwork and visiting SARS branches. The electronic filing system (eFiling) aims to address these issues and ensure that the services SARS provides are efficient and convenient for the taxpayer.

eFiling is a free electronic tool designed by SARS to offer electronic services such as filing tax returns, making payments and accessing accounts to name a few.

eFiling allows you the benefit of direct, secure and real-time electronic access to your tax profile as well as the opportunity to manage this at any time and from anywhere.

You must be linked to a tax type (e.g. income tax) in order to have full access to the services on eFiling and to transact.

SARS values you, the taxpayer. In order to protect your tax account(s), please note that not all services are offered online. Services such as change of name and surname must be done at a SARS branch.

3 SERVICES OFFERED ON EFILING

The following services are available on eFiling:

- Pay-As-You-Earn (EMP201 return)
- Skills Development Levy (included on the EMP201 and EMP501 return)

- Stamp Duty
- Security Transfer Tax(STT)
- VAT Vendor Search

4 NEW LOOK

SARS has redesigned eFiling in an effort to embrace the benefits of emerging technologies and provide an optimized and secure digital environment. The new look is also intended to help promote voluntary compliance, reduce the administrative burden and provide you, our valued client, with a more intuitive and user-friendly experience. The redesigned functionality on eFiling will be implemented using a phased approach.

Changes for this phase include:

- New look to align to SARS’ corporate identity
- Improved security to safeguard against fraud
- Implementation of a primary user-id (single login) to access all profiles
- Profile management (e.g. Organisations and Tax Practitioners)
- A dashboard providing the eFiler with a visual summary of his/her tax affairs at a glance

4.1 MIGRATION OF EXISTING USERS

All existing users (registered prior to 1 July 2019) will be authenticated and migrated to one single user sign on. If you have multiple login profiles linked to your identity/passport number, a list of your profiles will display (after you have been authenticated). You will be required to choose a primary login from the list. All your profiles will still be accessible once you logged in with your primary credentials. You can link your other logins as “Portfolios” to your profile.

4.2 PORTFOLIOS

A registered eFiler can act in different “roles” on eFiling (e.g. tax administrator). These “roles” are referred to as Portfolio Types. For example:

- **Individual** – a person acting as himself/herself to administer his/her own individual taxes
- **Tax Practitioner** – a person registered with SARS and a Recognised Controlling Body (RCB) and has a signed power of attorney to act on behalf of another taxpayer.
- **Organisation** – a representative of a tax paying entity acting either as the representative taxpayer (e.g. Public Officer, Executor of an estate, etc.) or an appointed representative with a signed Power of Attorney in place.

eFilers with a **Tax Practitioner** and **Organisation** portfolio type can:

- Activate multiple taxpayers against that portfolio type,
- Group taxpayers under the same Portfolio Type,
- Specify a descriptive name for each group (for ease of reference).

If you registered different portfolio types prior to 1 July 2019, you would have accessed the abovementioned portfolios by using a unique username and password for each. As from 1 July 2019, you will only use one username and password (referred to as the primary login) to login to eFiling. You can then choose the portfolio that you want to access.

4.3 PASSWORD RULES

When creating or changing a password on eFiling please ensure that the password contains a minimum of 8 characters and has at least one of the following:

- uppercase letter
- lowercase letter
- special character
- numeric digit.
4.4 ONE-TIME PIN (OTP)

- The OTP is a unique 4-digit security PIN and you will be required to enter this pin as confirmation when performing certain functions on eFiling.
- You can choose to receive an OTP via SMS or via an email address. Your preferred method of communication for the OTP can be maintained via your eFiling profile.
- For security reasons, the OTP is time-sensitive and you will be required to enter it within the time period indicated. If you are unable to enter the OTP within the specified time, you may request for it to be resent to you.
- For your security, you can only opt to resend an OTP twice.

What is a portfolio?

A registered eFiler can act in different “roles” as a tax administrator, on eFiling. These “roles” are referred to as Portfolio Types. For example:

- Individual - Acting as himself or herself when administering his or her own individual taxes.
- Tax Practitioner – Acting as a Tax Practitioner that is (registered with a Recognised Controlling Body (RCB) and in good standing) on behalf of another tax paying entity with a signed Power of Attorney in place.
- Organisation – Acting as the representative of a tax paying entity. Either as the representative taxpayer (e.g. Public Officer, Executor of an estate, etc.) or an appointed representative with a signed Power of Attorney in place.

With regards to the Tax Practitioner and Organisation Portfolio Type – An eFiler will be able to activate one or more taxpayers against the Portfolio Type and will also be able to group taxpayers together under the same Portfolio Type. The eFiler will be able to specify a descriptive name for each group, for ease of reference.

Previously, an eFiler accessed his or her different Portfolios by using a unique username and password for each Portfolio. Going forward, you will only have one username and password (referred to as the primary login) and after login, you can choose the Portfolio that you want to access.
