1 PURPOSE

- This guide is to assist taxpayers/tax practitioners in filing an Income tax return for individuals via eFiling. It is structured such that the user should be able to log in to eFiling, file/submit an Income tax return and request a correction via eFiling amongst others. Additional functions embedded on the system pertaining to eFiling and the Income tax return are discussed for the effective use of the system when accessing and filing your Income tax return.

- This guide in its design, development, implementation and review phases is guided and underpinned by the SARS values, code of conduct and the applicable legislation. Should any aspect of this guide be in conflict with the applicable legislation the legislation will take precedence.

2 INTRODUCTION

- Income tax is a tax levied on all income and profit received by a taxpayer (which could include individuals, companies and trusts). It is important, as it constitutes a large portion of the consolidated revenue stream of government, which is spent on programmes and services that enhance the wellbeing of its citizens. Income tax is imposed under the Income Tax Act No. 58 of 1962 legislation authority.

- As mentioned above, individuals/ trusts or companies that receive income are subject to being taxed. This income, which is taxable income, may be received by the taxpayer in the following forms:
  - Remuneration (income from employment), such as, salaries, wages, bonuses, overtime pay, taxable (fringe) benefits, allowances and certain lump sum benefits;
  - Profits or losses from a business or trade;
  - Income or profits arising from an individual being a beneficiary of a trust;
  - Director’s fees;
  - Investment income, such as interest and foreign dividends;
  - Rental income or losses;
  - Income from royalties;
  - Annuities;
  - Pension income; and
  - Certain capital gains.

- Collecting taxable income forms part of the mandate of SARS, inter alia to assist the citizens of South Africa in fulfilling their tax responsibilities. By law, businesses and individuals must file an Income Tax return every year to determine whether they are indebted to pay any taxes or are eligible for a tax refund. SARS services its citizens by ensuring that information pertaining to their tax affairs is captured accurately, which in turn allows a more credible return and a reliable assessment.

- In view of the above, SARS constantly modernises their tax processes to ensure that they are effective and optimal and one such enhancement has been on the Income tax return. Taxpayers who received an audit letter are now able to substantiate their declaration by either submitting the supporting documents or revising their Income tax
return within 21 working days from the date of the letter via eFiling.

- SARS values your compliance as taxpayers thus; we continuously ensure that the tax systems are functioning optimally and effectively so you can be more confident in your tax return filling process. The Income tax return on eFiling is one such improvement and this guide will assist you in filing your return via eFiling.

3 DESCRIBING THE REDESIGNED EFILING SYSTEM

3.1 OVERVIEW

- SARS eFiling was introduced in 2003, as a free online solution for the submission of returns, declarations and other related services. This free service allows taxpayers, tax practitioners and corporates to register and submit returns/declarations, make payments and perform a number of other interactions with SARS in a secure online environment. To access this software you have to be registered for at least one tax type. Once registered, eFilers can submit returns, view their tax status and make payments to SARS electronically 24 hours a day.

- In the last 10 years SARS introduced additional functionality to eFiling providing enhancements for self-service account management and customer engagement support such as filing history, tax calculator, correspondence, Help-You-eFile, mobile versions etc. While these enhancements offered a fairly state-of-the-art solution in the realm of online digital tax management at the time, there is a now a need to further enhance and streamline the design, incorporate newer user management, user registration and profile management. Leveraging on new technology advancements will cater for an optimized user interface and user experience and ultimately support the strategic objective of Digital migration to cost effective channels.

- Due to emerging technologies and digital demand there is an urgent need for the redesign of eFiling, to ensure that SARS is best positioned for the digital demands of the future by embracing the benefits that technology offers by providing an optimised secure digital environment. Millions of taxpayers transact on eFiling and a refresh of the current eFiling platform will ensure a user-friendly customer experience, with enhanced design that promotes compliance and reduced administrative burden. Simpler registration, user management and navigation will further reduce the risk of fraud, promote an increased eFiling uptake and overall migration towards easy digital and cost-effective channels.

- The redesign of eFiling, presents SARS with an opportunity to enhance the customer experience by improving platform design, navigation and accessibility to electronic users while strengthening the access to eFiling to ensure the protection of the taxpayer and their confidence in the organisation.

- The eFiling redesign journey, which aims to enhance the user experience by introducing a user-friendly design and framework, as well as provide the eFiler with a secure digital transactional platform with SARS and further establish eFiling as the preferred channel. Furthermore, security processes will be enhanced to curb identified risks while providing enhanced user/profile management and enhancing digital offerings in the self-service environment.
• The solution will be delivered in a phased approach where the first phase address the alignment of eFiling to the corporate identity of the SARS website (www.sars.gov.za) as well as registration, access control and profile configuration.

• This section of the guide will aid you in understanding how the software operates by listing the benefits of using eFiling and further explain how to obtain assistance whilst using eFiling.

3.2 BENEFITS OF USING eFILING TO FILE YOUR INCOME TAX RETURN

• eFilers are given more time to make their submissions.
  ▪ Taxpayers/Tax representatives can save the Income tax return and submit it later, which will give them more time to review the information to be submitted to SARS.

• eFilers have a full history of all submissions, payments and electronic correspondence available at a click of a button.
  ▪ The system allows a taxpayer/tax representative to view the history of submissions made of the Income tax return on the system for their convenience.

• eFilers can receive SMS and email notifications to remind them when submissions are due.
  ▪ SMS and email notifications assist the taxpayers/tax representatives in the submission process by ensuring that the returns are submitted before the due date.

• The simplicity of the process results in fewer errors and creates a quicker processing cycle for individuals and business.
  ▪ There are embedded functions within the Income tax return such as pre-populating fields, pop up warning messages when incorrect information is completed and the simplified navigation. These functions are there to assist you whilst editing the return, which results in few errors, made during your return process.

• eFilers can revise the return declaration of their initial Income tax return via eFiling
  ▪ This function allows the taxpayer/ tax representative to resubmit incorrect information (Income tax return) submitted to SARS resulting in an accurate assessment.

5 STEP BY STEP DEMONSTRATION ON USING EFILING TO SUBMIT YOUR INCOME TAX RETURN

5.1 OVERVIEW

• When filing your Income tax return, you must ensure that correct information pertaining to your income/profit is recorded on your Income tax return. Some fields on the form are pre-populated; however, you are required to verify whether the information is correct (such as personal demographic information, contact details, banking details, IRP5 certificate and medical aid information). eFiling has been designed for ease in filing your return. If you do however encounter problems, call our reliable Contact Centre agents who are there to assist (refer to section 3.3 of this guide). This section will demonstrate how to submit your Income tax return via eFiling.

• Note that additional/supporting documents relating to your Income tax return are submitted to SARS upon request; you are required to retain these supporting documents for a period of five years, should SARS require them in the future.

5.2 SIMULATED TAX CALCULATION

• SARS has embarked on a process to improve efficiencies and tax compliance by introducing a new method of submitting returns. SARS will leverage on the available third party data submitted by constituents. SARS would be able to auto-assess a certain segment of taxpayers and issue assessment notice to taxpayers without waiting for the returns from these selected groups.

• The process will be implemented for a specific group of taxpayers whom the criteria would include active taxpayers, who were employed for the full 12 months, whom SARS would have their IRP5 certificates, Medical Certificate(s) and/or Retirement Annuity Fund Certificate(s).

• The auto assessment process will exclude provisional taxpayers and taxpayers who in addition have tax directives, Tax free investments, capital gains tax and/or foreign income and interest income that they may have to declare. The latter group of taxpayers will follow the existing process of filing their tax returns.

• The results of the auto assessment will be issued to the taxpayer in a SMS sent to them, which will also include further action they may wish to take based on the results. The details of the assessment will be depicted in the form of a simulated notice of assessment, which will be introduced with this process. The taxpayer will be able to view such on all the available submission channels.

• In the instance that the taxpayer wishes to file and declare further income, the current return filing process will apply and the submitted declaration would be recorded as the original assessment from the taxpayer.

• Below find the steps when your return has been selected for auto assessment.

• After successful login to eFiling, proceed as follows:
- Click on “Returns”
- Click on “Returns Issued”

  (a) was issued to the incorrect taxpayer;
  (b) was issued in respect of the incorrect tax period; or
  (c) was issued as a result of an incorrect payment allocation and to the extent that there is reasonable ground to believe that the return submitted was a fraudulent and/or fictitious submission for the reporting year of assessment.

- Total discharge refers to filed returns that were cancelled by SARS.

- If the return(s) was submitted via eFiling, the status of these return(s) will be updated to “Cancelled”. If there is more than one version of the return, all the versions statuses for the applicable year of assessment will be cancelled. These include returns that were submitted and finalised through another channel and processed on eFiling.

- For assessments that has been totally discharged, you will not be allowed to request for correction, make payments or dispute the total discharged returns. - If you make changes on your return subsequent to this, a message will appear to indicate that your return was updated since the last calculation. Select “View Previous Calculation” to view the calculation or select “Close Window” to proceed.

7 TAX VERIFICATION OF DECLARATIONS FOR PERSONAL INCOME TAX (3RD PARTY DATA MISMATCH)

7.1 OVERVIEW

Taxpayers may receive a verification of declaration letter from SARS in relation to the Income tax return submitted which stipulates that they are presented with an opportunity to substantiate the declaration by either submitting supporting documents or a request for correction (RFC) to correct any errors made on the return within 15 working days from the date of the letter. Failure to submit a request for correction or provide the supporting documents to substantiate the declaration, may result in an Understatement Penalty (USP) of up to 200% in terms of the Tax Administration Act (TAA) No. 28 of 2011.

The following actions may result in no understatement Penalty (USP) being imposed

- Submission of supporting documents which fully supports the claim lodged on the Income tax return.

  - Submission of a request for correction (RFC) where the amounts of the claim are adjusted in part or in full, in line with the data in SARS possession.
