1.	As part of our Office of Ethics and Compliance office requirements can you kindly clarify what the Procurement process steps are following the finalization of this RFI. Steps pertaining to your decision-making process and your approvals levels.	SARS will evaluate the responses in comparison to the highlighted need. If there are favourable solutions from the market then SARS will prepare an RFP that will ensure open, transparent and competitive bidding process to address the need. If there is no suitable solution suggested from the market, then SARS will have to continue with the current process available to SARS.
