The Joint Building Contracts Committee® - NPC Minor Works Agreement Edition 5.2 – May 2018

JBCC®

The Joint Building Contracts Committee® NPC (JBCC®) is representative of building owners and developers, professional consultants and general and specialist contractors who contribute their knowledge and experience to the compilation of the JBCC® documents. The JBCC® documents portray the consensus view of the constituent members and are published in the interests of standardisation and good practice with an equitable distribution of contractual risk

For more information about the JBCC®, frequently asked questions, where documents may be purchased as well as training courses visit www.jbcc.co.za. The JBCC® does not sell directly to users but may be contacted at info@jbcc.co.za

Minor Works Agreement structure

The agreement clauses follow the project execution sequence. The documents aim to set out clear, balanced and enforceable procedures, rights and obligations which, when competently managed and administered, protect the employer, contractor and subcontractors alike. The following additional documents form part of the suite of contract agreements:

- The JBCC® Minor Works Agreement Contract Data that incorporates specific employer and contractor requirements
- The JBCC® General Preliminaries that covers all aspects of preliminaries for most types of projects

This agreement is intended for use where:

- The works are not complex

The employer appoints:

- A principal agent to administer the agreement and or other agents for specific aspects of the works
- Direct contractors for specialised work or installation not undertaken by the contractor

This agreement is suitable but not limited for use where:

- The contractor is a small to medium enterprise
- The employer carries the major liabilities related to the works
- The employer is responsible for the primary insurances related to the works

This agreement is *not* suitable where the works requires:

- The appointment of nominated or selected subcontractors
 - Cost fluctuations
- and is *not* considered suitable where:
- The anticipated construction period is longer than nine months
 - The necessary contract documentation is not complete and available at tender stage
 - Completion in sections is required

Warning!

The JBCC® Minor Works Agreement Edition 5.2 has been coordinated with the JBCC® General Preliminaries and the JBCC® certificate forms and support documents. Forms from previous editions are not compatible with the JBCC® Minor Works Agreement Edition 5.2

Persons entering into or preparing contracts using the JBCC® suite of contract agreements and support documents are warned of the dangers inherent in modifying any part of it

Experience has shown that changes drafted by others, including members of the building professions, often have results that may be prejudicial to either, or both, parties
