

We are removing the fire rated/ strong door and 'discard'. No there is no further specifications.

Re: the 2nd questions for drawers, cupboards etc, I am not sure which ones are under reference, but if it is the kitchen shopfitting, please refer to the attached specifications labelled '*SF-05-KITC*' and if it is for the shopfitting for service counters, please refer to the specifications labelled '*ortia-counters*' (this was part of the tender pack).

I have also attached photos of similar service counters we have installed at another Customs site.

Regards.
