TABLE A

If the table is inadequate: Add R 11,407 (under 65), R 11,226 (65 to 74) or R11,165 (over 75) to the result of [45% X (actual weekly remuneration less R33,344)]. Apply rounding to the end result by disregarding the cents.

Note: R33,344 is the average between R33,319 and R33,369
