Dear Sir or Madam

TEMPORARY SOLUTION FOR OVER CARRIED CARGO

This communication serves to withdraw and replace all other communications and procedures related to over carried cargo.

It has been noted that the withdrawal of the DA 31 for over carried cargo has left a void in the treatment of over carried cargo.

SARS further acknowledges that the temporary solution that was put in place regarding the usage of the DA 6 until a more permanent viable solution is provided may not be a legally viable solution and the incorrect usage of the DA 6 as it was not intended for the purpose of over carried cargo.

Clients are advised that the newly approved interim procedure for over carried cargo will be to submit a manual voucher of correction (VOC) under the provisions of Section 40(3)(a)(i)(C) to the respective Branch Office where once processed a manual release will be provided to the declarant.

Kind regards

Coffet Lebepe
