How to clear Cache in Various Browsers

**Google Chrome**

1. Click the menu icon in the browser upper right corner. Click **Settings** on the bottom of the menu.

2. From settings, click **Show advanced settings**. It’s located at the very bottom of the settings section.

3. Scroll to the privacy section and click **Clear browsing data**.
4. Select **Cached images and files**. Uncheck all other options to avoid deleting browser history, cookies and other things you may wish to retain. Change **Obliterate the following items from** to **the beginning of time**.

5. Press **Clear browsing data**. You are done!

**Firefox**

1. Click the Firefox menu in the top left corner.
1. From settings, click **Show advanced settings**... It’s located at the very bottom of the settings section.

2. Scroll to the privacy section and click **Clear browsing data**.

3. Make sure **Details** is expanded, then select **Cache** from the list. Uncheck everything else.

4. In the **Time Range to Clear** drop down, select **Everything**.
5. Select **Clear Now**. Your computer will work for a moment, and the process will be completed. You've successfully cleared Firefox’s Cache!

**Safari**

1. Once your browser is open, click the Safari menu and select **Empty Cache**…

2. Click **Empty**. You are done!
Internet Explorer 9, 10 and 11

1. Once your browser is open, click the gear icon at the top right to open the Settings menu. Then, select Safety and Delete Browsing History.

2. Select Temporary Internet Files. You will also need to uncheck all of the other boxes, especially Preserve Favorites website data. This option makes the window also delete objects from websites in your Favorites folder, which is necessary to completely clearing your cache.

3. Click the Delete button next to the bottom of the window to perform the operations (i.e. clear your cache by deleting temporary files).
4. Your computer will work for a moment, and then the process will be completed. You've successfully cleared Internet Explorer’s Cache!

**Microsoft Edge**

1. In Microsoft Edge, select **Settings and more** (the icon that looks like three dots).

2. Select **Settings**
3. In the **Settings** sidebar, select **Privacy** and **Services**

4. **Under Clear Browsing Data**, select **Choose what to clear.**
5. In **Clear browsing data**, select the check box for each type of data, such as browsing history, cookies, and passwords, you want to clear from the cache.

6. From the **Time range** list, select how far back Microsoft Edge should empty the cache (for example, everything for the past hour, for the past seven days, or for all time).

7. Select **Clear now**.
