

## How does the eFiling payment reference work?

When making a payment on eFiling, there are a few ways in which the payment can be made as described in the payment guide on SARS website.

Once the payment has been initiated to the bank, a unique payment reference number (10 digits) is displayed, as illustrated in the below screen:

**Payment Initiation Result**

**Summary of payment transaction details**

---

Your payment request has successfully been submitted to Nedbank. Please login and authorise the payment.  
The following message was returned: **Payment request was successfully submitted to Nedbank.**

Account Name: **Nedbank Test 2**

Payment Amount: **R 10.00**

Payment Reference: **SARSEP0024540444**

On sending the payment instruction to the bank the payment reference number is used instead of the Tax Numbers. This is in order to allow the client to make one payment. Multiple transactions, with different Tax Reference numbers can be linked to the same eFiling payment reference number.

On the client's bank product, the eFiling payment reference will be displayed for approval in order for the transaction to be finalised.

This payment reference number is also displayed as the receipt number on the eFiling payment confirmation :

Notifications are sent out for payments that have not been approved by the client in the past 24 hours, and are reflected in eFiling as "Awaiting Authorisation".

A notification will reflect the eFiling payment reference number (10 digit) associated to the payment that was not approved.

The following steps can be taken to track this payment on eFiling:

- Select the “Awaiting Authorisation” item under the Payments navigation bar on the left to view all payments that have not been processed yet.

- The “Awaiting Authorisation” page will allow the user to search or filter for the payments according to the following fields:
  - Taxpayer Name:
    - When you select “Select All” from the Taxpayer drop down list and enter a specific Taxpayer Name in the “Taxpayer Name” field, the Awaiting Authorisation page will display all payments related to the captured Taxpayer name.
    - If a specific Taxpayer has been selected from the Taxpayer drop down list, the “Taxpayer Name” field will be disabled and the selected taxpayer name will be populated into this field.
  - Tax Product:
    - If the user selects a specific product from the Tax Product drop down list, the payment history page will display all payments for all the taxpayers related to the selected Tax Product.
  - Tax Reference Number;
  - Payment Reference Number (10 digits);
  - Payment Status;
  - Date From
