#### **Questions and Answers**

<b>No</b>	<b>Questions</b>	<b>Answers</b>
1.	Could you kindly advise in terms of the volumes that are anticipated regarding the Lifestyle Assessment and Audit Data, as this information will be pertinent in terms of pricing? This is reference to point 4.6 page 9 in the BRS document.	Kindly note that SARS cannot provide the actual volumes. However, over a one year period (September 2020 to August 2021) an estimated 326 "Life Style Audit Reports" were pulled.
2.	Could you also advise in what format would the Lifestyle Assessment and Audit Data be required? Is the data required via Batch Format, Online Format or API call?	Most data is required via an online format. However, from time to time some bulk data is also requested for specific objectives via a batch format.
3.	Could we include a separate annexure that caters for the Lifestyle Assessment & Audit Data in a Batch Format, because this is not	No. Batch format requests are ad hoc and based on specific business objectives but our daily requests require an online format.

	catered for in the pricing document?	
4.	Please note that certain components in the pricing excel document provided form part of one report, therefore the question is should these components be priced individually or combined into one line item? Should these be priced individually it might inflate the costing as per the current format of the pricing document. Please refer to the below image for reference, all components highlighted in yellow form part of one report.	Pricing must be done individually.
