

RFP 23/2024: ESTABLISHMENT OF A PANEL OF CONTRACTORS FOR ENGINEERING, DESIGNING AND INSTALLATION OF SOLAR PHOTOVOLTAIC (PV) SYSTEM AT SARS OFFICES

QUESTIONS AND ANSWERS

#	QUESTION	SARS RESPONSE
1.	It is a mandatory requirement that the bidder must have both a registered electrician and an engineer in their employee.	Yes
2.	Can we submit a bid for the engineering services only or will our bid be disregarded in such instance?	Both requirements are mandatory and a bidder that fails to meet one of the requirements will be disqualified from the evaluation process. Refer to paragraph 7.3, Table 5 of the Main RFP Document.
3.	Will SARS consider an alternative approach to procure engineering, design, and installation of PV systems in a cost effective, efficient, and innovative manner. If so, kindly provide the contact details of the relevant designated person to discuss the alternative approach.	No, SARS will not consider a different approach to the one that has been issued under this Request for Proposal.
4.	We are here by asking for clarity in regard to the type of SAPVIA certificate, which is one of the technical requirements in the Tender 23/2024.	Refer to paragraph 7.4.3, Table 6, Evaluation Area 6 and 7 of the published Main RFP Document for SAPVIA requirements.
5.	We wanted to ask if the recording for the briefing session for RFP 23/2024 is available for download.	The briefing session presentation and Q's & A's are loaded on the SARS website and e-tender for downloading. Recording is not available for download.
