REQUEST FOR PROPOSAL

Summary, Guidelines, Conditions, and Instructions

1 PURPOSE OF THIS REQUEST FOR PROPOSAL

- 1.1 The purpose of this Request for Proposal (RFP) is for the South African Revenue Service (SARS) to invite suitably qualified service providers (bidders) to submit proposals (tenders) in accordance with the rules set out in this RFP for the Appointment of a second printing brand (OEM) for standardisation of printers across SARS Offices on a non-exclusive basis.

2 OVERVIEW OF SARS' REQUIREMENTS

2.1 Summary of the scope

- 2.1.1 Details of the scope of work and the required goods and services are defined in more detail in the Business Requirements Specification document and other documents forming an integral part of this RFP.

2.2 Background

- 2.2.1 SARS generally receives its printing services from the National Treasury's Transversal contracts where eligible service providers can do business with Government institutions.
- 2.2.2 SARS has made a decision to standardise on two (2) MFP brands and aims to either rent and/or procure an estimated 500 MFPs, where Microsoft Universal Print will serve as the chosen Print Management Platform. The MFP devices would have a native capability to scan documents to employee's OneDrive's.
- 2.2.3 In April 2024, SARS issued a tender RFP 01/2024 Standardization on two (2) Multi-function Printer (MFP) brands across SARS, where one brand (Ricoh South Africa) was appointed post the evaluations. This meant that SARS did not achieve its objective to standardize on two MFP brands.
- 2.2.4 This RFP seeks to appoint the second brand of the bidder that will achieve the highest score after technical evaluation process. SARS will exclusively procure and/or rent printers from the two OEMs brand over the next period of 5 to 10 years.

Should there be a tie-on specific goal, SARS will throw a die to determine the top ranked bidder and/or brand to be appointed as a preferred printing brand.
- 7.4.4 **If a bidder does not meet the technical evaluation minimum threshold, the bidder will automatically be disqualified.**

Notes:

- The technical evaluation will be divided into two (2) categories, which will be as follows:
 - Technical Solution (1) – The evaluation will be done at SARS, where a bidder will be required to physically bring its printer onsite.
 - Capability (2) & Support (3) – The evaluation will be done through a desktop exercise, where a bidder is expected to respond to those two (2) sub-criteria at the time when the tender closes.

NB: SARS will then combine the scores and be able to determine as to which bidder will have met the required minimum threshold of 70 out of 100 points.

- Bidder must note that, there will be no price and specific goals evaluation for this tender. SARS' main goal for this tender is to appoint the highest scoring bidder and/or brand after completion of technical evaluation criteria (Technical Solution and Capability & Support) as per the above provided guidelines in Table 6: **Technical evaluation criteria**.
- As part of the proposal submission process, SARS may require bidders to submit a Multifunction Printer (MFP) for the purpose of evaluating their technical solution (1), which forms part of the overall technical evaluations. It is important to emphasize that bidders will be responsible for the technical maintenance and support of the MFP devices submitted for technical solution throughout the evaluation process. This support is expected to adhere to Next Business Day (NBD) service level agreements, ensuring a seamless evaluation process and minimizing disruptions.
- SARS will then procure and/or rent printers from the two (2) standardized printer brands (Ricoh and the second brand that will be appointed through this RFP process). The procurement and/or renting of printers from the two (2) brands, will be done through either a transversal contracts or limited bid (only from the accredited partners of both brands).

NB: In the previous RFP 01/2024, OEMs whose MFP machines were evaluated for compatibility (Technical Solution) that information may be used for the purposes of this tender. However, SARS reserves the right to request ANY OEM that responds to this tender to submit their MFP machine for the purpose of Technical Solution (1) testing during the evaluation process.

7.5 Recommended bidders' due diligence and risk assessment prior to award.

- 7.5.1 SARS has a legal and moral obligation to ensure that a supplier's financial position does not place public money or services at unacceptable risks and will therefore perform due diligence and risk assessment of recommended bidder(s) prior to award.
- 7.5.2 As part of due diligence and risk assessment, the bidder must ensure that the bidder is complying to all regulatory prescripts, including industry regulations specific to the commodity/services procuring, that are applicable to this tender, as well as ethical business practices. SARS has the right to request evidence of this compliance from the bidder, and third parties, for purposes of the due diligence exercise and for audit or contracting arrangements.
- 7.5.3 In the event that a due diligence exercise reveals that a recommended bidder does not comply with SARS' risk appetite or compliance requirements then SARS has the right not to make an award to the recommended bidder.
- 7.5.4 The recommended bidder(s) will be required to consent in the agreement to continuous and in-depth due diligence to ensure ethical business practices throughout the term of the tender.

7.6 Proposed legal agreement.

- 7.6.1 Any award made to a bidder under this RFP is conditional, amongst other provisions, upon SARS and such bidder concluding a written agreement within twenty-one (21) working days of the bidder receiving the written agreement. The timeous finalisation of such an agreement will be an absolute pre-condition to the recommended bidder(s) being awarded the tender and providing the goods or services to SARS.
- 7.6.2 If the recommended bidder(s) fails to sign the proposed agreement within the time frame stipulated, SARS reserves the right to:
 - 7.6.2.1 cancel the award to the recommended bidder;
 - 7.6.2.2 enter into negotiations with the second ranked bidder(s) and conclude the proposed agreement with such second ranked bidder(s); or
 - 7.6.2.3 take any other action SARS deems reasonable and appropriate.
- 7.6.3 Bidders are requested to-
 - 7.6.3.1 Comment on the terms and conditions set out in the draft agreement and where necessary, propose required changes to such terms and conditions.
 - 7.6.3.2 Each comment and/or amendment must be explained.
 - 7.6.3.3 All changes and/or amendments to the agreement must be in an easily identifiable colour

font and tracked for ease of reference.

7.6.4 Upon award, SARS and the successful bidder will conclude the agreement which regulates the specific terms and conditions applicable to the goods and services being procured by SARS. In this regard:

7.6.4.1 SARS will enter into negotiations with the bidder with a view to concluding the agreement.

7.6.4.2 SARS will be entitled to cease negotiating with a bidder if SARS, in its sole discretion, is of the opinion that: (i) the bidder has made misrepresentations in its proposal; (ii) the bidder is attempting to withdraw from positions or commitments made in its proposal; (iii) the bidder is not negotiating in good faith; or (iv) an agreement may not be expeditiously concluded with the bidder for any other reason.

7.6.4.3 SARS reserves the right to vary the terms and conditions of the proposed agreement during the course of negotiations with a bidder at SARS' sole discretion.

7.6.4.4 SARS reserves the right to accept or reject any or all amendments or additions proposed by the successful bidder if such amendments or additions are unacceptable to SARS or pose a risk to the organisation.

7.6.5 A bidder should note that the terms of its proposal will be incorporated in the proposed agreement by reference and that SARS relies upon the bidder's proposal as a material representation in making an award to a successful bidder and in concluding an agreement with the bidder. It follows therefore that any misrepresentations in a proposal may result in legal action or other processes by SARS against the bidder, notwithstanding the conclusion of an agreement between SARS and the bidder for the provision of the goods and services in question. In the event of a conflict between the bidder's proposal and the agreement concluded between the parties, the agreement will prevail.

7.7 Performance Standards

7.7.1 SARS may prescribe certain performance standards (Service Levels) that a successful bidder must comply with in the performance of the services.

7.7.2 Failure to adhere to the Service Levels will result in SARS levying a financial penalty for the Service Level Failure.

7.7.3 Multiple Service Level Failures with the SARS' prescribed Service Levels will constitute a material breach of the Service Level Agreement.

7.7.4 Notwithstanding the implementation of the Service Levels and Financial Penalties, SARS reserves the right and without derogation to any other remedies it may have in law, to terminate the Service Level Agreement for breach (persistent non-compliance) by the successful bidder.

8 TRUSTS, JOINT VENTURES, SUBCONTRACTING AND OTHER ARRANGEMENTS

8.1 Proof of existence of a trust, joint venture, consortium, and subcontracting arrangements

8.1.1.1 Details of the trustees of the trust; and

8.1.1.2 Details of the beneficiaries of the trust. In instances where the beneficiary is a trust, the trust deed of that specific trust is required.

8.1.2 Where, for the purposes of this RFP, a bidder submits its proposal as a joint venture or consortium (incorporated or unincorporated), the bidder must submit the joint venture / consortium agreement, which sets forth the following details:

8.1.2.1 identification of each party to the agreement in full;

8.1.2.2 the percentage ownership of the joint venture / consortium of each party to the agreement (if applicable);

8.1.2.4 the anticipated percentage of the revenue that the party(ies) would receive (anticipated revenue that the party(ies) would receive as a percentage of the total revenue the bidder would anticipate receiving over the term of the agreement with SARS), if the bidder is successful; and

8.1.2.5 clearly set out the roles and responsibilities of the Lead Partner and the remainder joint venture / consortium party(ies). The agreement must also clearly identify the Lead Partner, who shall be given the power of attorney to bind the other party(ies) in respect of matters pertaining to the joint venture.

8.1.2.6 If a bidder is submitting a proposal in the form of an unincorporated joint venture / consortium, the SBD 4 Bidder's disclosure form should be completed by each party participating in the joint venture / consortium agreement, and proof of CSD registration should be submitted for all parties participating in the joint venture / consortium for this RFP.

8.1.2.7 Joint venture members should be advised that each member will be held jointly and severally liable for the performance of the joint venture.

8.1.3 Where, for the purposes of this RFP, a bidder has or intends to subcontract areas of scope of the goods and services, the bidder must submit the subcontracting agreement, and must note the following:

- 8.1.3.1 the bidder must indicate the name of the subcontractor(s), the percentage of the contract that will be subcontracted, the B-BBEE status level of the subcontractor(s) and whether the subcontractor(s) is an EME or QSE;
- 8.1.3.2 a bidder awarded a contract, may only enter into a subcontracting arrangement with the approval of SARS;
- 8.1.3.3 the agreement will be concluded between the main contractor(s) and SARS, therefore, the main contractor(s) and not its/their subcontractor(s) will be held liable for performance in terms of its contractual obligations;
- 8.1.3.4 the successful bidder must, at all times, be solely and entirely accountable to SARS for the performance of its contractual obligations in terms of the agreement; and
- 8.1.3.5 Without diminishing the bidder's accountability in any way for the delivery of the services, including the performance standards, SARS may require: access to and transparency in the subcontracting agreements; the full details of the functions which the subcontractor will fulfil in terms of the agreement including details of the delimitations of scope within the services to be assigned to such a subcontractor; monitoring and reporting of subcontractor's participation and performance to SARS; direct participation of subcontractor(s) in the account and project planning activities; and subcontractors' representation in governance structures and committees. SARS will, at all times, demand fair dealing in the relationship between a bidder and its subcontractor(s).

- 10.5.1 SARS supports the spirit of broad-based black economic empowerment and recognises that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner.
