## **1 SUMMARY**

- a) This guide is designed to assist you in the activation of your Transfer Duty account on eFiling, the completion of your TDC01 Declaration, registration for the allocation of a conveyancer registration number on eFiling.
- b) The modernisation of Transfer Duty included the following enhancements:
- i) Additional validations have been introduced into the form to reduce errors made by the user on the forms.
  - ii) Supporting documents are no longer mandatory on the submission of a Transfer Duty Declaration (TDC01) and users will only need to submit supporting documents when requested to do so by SARS via eFiling.
  - iii) Payment is only required once the declaration has been approved or accepted by SARS.
  - iv) Users are now able to print receipts only once SARS has confirmed that payment has been received in full in its bank account.
- c) Key features are highlighted below:
- i) The additional channel and integration with 3rd party conveyancing systems:
    - A) Integration with 3rd party conveyancing systems to create an additional channel for the completion of declarations. The integration between the different 3rd party conveyancing systems and SARS will lead to the implementation of single data validation standards that are fully aligned with the required SARS validations directly from 3rd party conveyancing systems.
    - B) This will ensure that accurate data is captured and submitted for processing and eliminate double capturing. The integration will enable users to:
      - I) Submit Transfer Duty Declarations or corrections (up until when payment is made).
      - II) Complete all the work offline and only go online when submitting declarations and supporting documents.
      - III) Supporting documents will need to be submitted on request from SARS and can be submitted using the 3rd party conveyancing systems.
      - IV) If the user received a letter from SARS requesting him/her to submit supporting documents or to revise the declaration, the user will have only one opportunity to revise the Declaration before submitting it to SARS.
    - C) A new Transfer Duty dashboard to enable users to view the status of their Transfer Duty transactions. Users will also be able to receive correspondence and dashboard updates directly when synchronising.
    - D) Users will be able to electronically cancel submitted Transfer Duty Declarations via their 3rd party conveyancing systems at any time. A request for cancellation after payment made will automatically be seen as a request for a refund and therefore the supporting documents must be attached to process the refund.
    - E) Users will be able to make corrections via their 3rd party conveyancing systems to submitted declarations, up until when payment is made. Payment can only be made once the declaration has been approved or accepted by SARS and receipts will only be printed once SARS has confirmed that payment has been received in full in its bank account.
  - ii) The redesigned Transfer Duty Declaration and Process
    - A) The previous five declaration forms have been merged into one dynamic form. This new form is in HyperText Markup Language (HTML). This form is referred to as the TDC01.
    - B) Users can now create a customised form containing only the required fields for completion, by way of a wizard.
    - C) The user can save the declaration at any time and then re-open the declaration at a later stage to complete.
    - D) A separate automated tax calculator that can be used to calculate the Transfer Duty owed has been added on the form. Once the calculator is triggered the user will be shown the calculated result on his or her computer screen.
    - E) The user will be able to request for status on a declaration submitted.
    - F) Users will be able to electronically cancel submitted Transfer Duty Declarations at any time. A request for cancellation after payment was made will automatically be seen as a request

**Effective Date: 7 April 2025**

for a refund and therefore the supporting documents must be attached to process the refund.

- G) Users will be able to make corrections on eFiling to submitted declarations, up until when payment is made. Payment can only be made once the declaration has been approved or accepted by SARS and receipts will only be printed once SARS has confirmed that payment has been received in full in its bank account.
- d) The Financial account number based on the Transfer Duty number will enable the user to use the eAccount function to:
  - i) To reallocate a credit on the account to another debit,
  - ii) Draw an Interim Statement of Account and analyse and manage payments more effectively.
  - iii) The registration of conveyancers via eFiling
    - A) Conveyancers can now register on eFiling to be allocated a registration (TD-XXXXXXX) number.
    - B) The registration application will only be done through eFiling.
    - C) Registration with SARS as a conveyancer is voluntary. However, registration will enable SARS to effectively facilitate refunds much quicker in the future.
    - D) Deregistration of conveyancer.
- e) The functionality to upload of supporting documents for new or changes to bank details in the case of a transfer duty refund request is available on eFiling and via the SARS Online Query System on the SARS website.

## 1.1 Retention period of documents

- a) All transfer duty declarations and relevant material must be retained by the client for a period of 5 years from the date of submission to SARS.

## 1.2 Submission of declarations

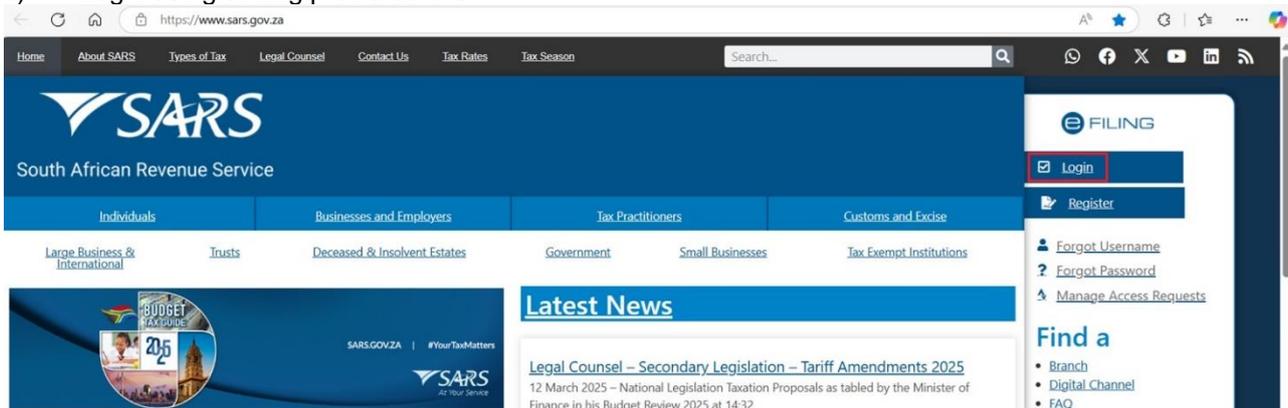

- a) A transfer duty declaration can be submitted to SARS in one of two ways:
  - i) Through the eFiling functionality. This will cater for users not using third party software that will be enabled to integrate with eFiling.
  - ii) Through third party conveyancing systems integrating with eFiling through an integration layer.
- b) The submission of transfer duty declarations via eFiling is available to clients with the CREDIT PUSH FACILITY.
- c) The CREDIT PUSH facility can be obtained from the relevant banking institution.
- d) Credit push refers to payment transactions that are initiated on eFiling and presented to the banking product as bill presentation, i.e., at the payer's bank as a payment request awaiting authorisation. The payer is required to log into the banking product (e.g., internet banking) and authorise the payment request to finalise the transaction. Credit push transactions are irrevocable once approved by the user.

## TRANSFER DUTY TRANSACTION TYPE

a) Only one of the following options can be selected and each option is explained below.

i) **Undivided Transfer of Property**

**A) Normal**

I) This is the normal sale of a property between a willing buyer and seller dealing at arm's length in an open market.

**B) Donation**

I) This is defined as any gratuitous disposal of property, including any gratuitous waiver or renunciation of a right. For a disposal to be gratuitous, it needs to be for no consideration or free.

**C) Exchange**

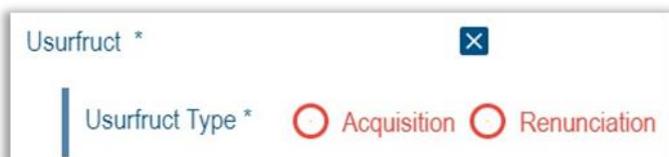

I) This is defined as something given in return for something received, for example, where two or more properties are being exchanged with or without any other consideration.

II) Please note that there is usually a greater value and lower value property involved. Ensure that the greater value property is captured first and the same transaction reference number must be captured under the heading "Transaction Reference of Related Exchange Transaction" in the field "Transfer Duty Reference Number". When the lower value property transaction is done, please capture the greater value property transaction reference number in the mentioned fields.

**D) Partition**

I) An action for partition usually arises when there is a dispute as to how to divide property, or in a dispute as to whether property should be sold. Normally, a partition order provides for an appraisal of the total property, which sets the price for one of the parties to buy out the other's half.

ii) When "**Usufruct, Fideicommissum, Bare Dominium, Usus or Habitatio**" is selected, the wizard will expand to include "Acquisition/Renunciation". Acquisition refers to the act of gaining a real right and Renunciation refers to the rejection of the real right.

**E) Usufruct**

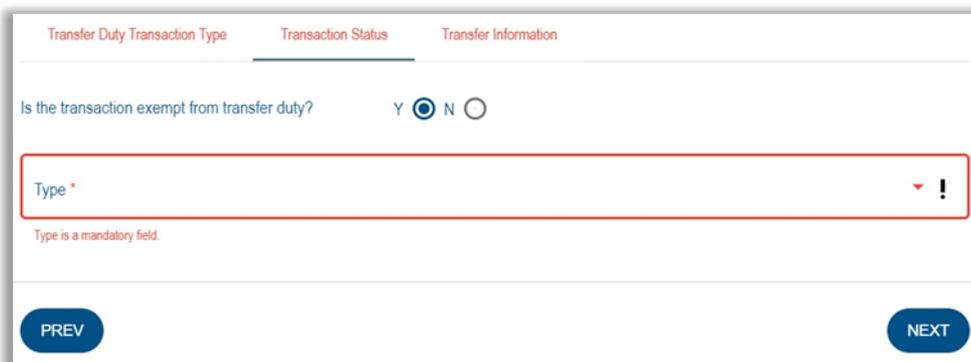

I) A limited real right to use and derive profit/benefit from property that belongs to another, as long as the property is not damaged.

**F) Fideicommissum**

**Effective Date: 7 April 2025**

  - G) Bare Dominium
    - I) A real right of ownership in respect of property that is subject to the rights of holders of certain limited real rights, e.g. usufruct or habitatio.
  - H) Usus
    - I) The personal right of use (usus) is a lesser right than usufruct. It entitles a person to use another's property, but not to appropriate the fruits of the property.
  - I) Habitatio
    - I) A limited real right to inhabit the house/dwelling of another but the holder of the right has a right to residence only, not to the profit/benefit from the property.
- iii) **Note:** Where any renunciation together with any acquisition is applicable, two separate transactions must be submitted.
