46A6.14 Article 14 - Minor errors

Where the origin of an imported good is not in doubt, minor typographical errors on the Certificate of Origin, or slight discrepancies between the relevant documents, or

the absence of the overleaf instructions, will not of themselves render the Certificate of Origin invalid if it does in fact correspond with the good. However, this does not prevent the People's Republic of China Customs from initiating a verification process in accordance with rule 46A6.17.

46A6.15 Article 15 - Retention of origin documents

- (a) Producers and exporters shall retain documents that prove the originating status of the goods, including those related to the cumulation under rule 46A6.06, as well as the fulfilment of the other requirements of these rules and implementation procedures, for at least 5 years.
- (b) The South African Revenue Service shall retain copies of Certificates of Origin and other related supporting documents, including those related to the cumulation under rule 46A6.06, for at least 5 years, and shall ensure such documentation is complete and available upon request for the purpose of verification under rule 46A6.17.

46A6.16 Article 18 - Waiver of certificate or origin

- (a) The People's Republic of China may waive the requirements for the presentation of a Certificate of Origin and grant zero-tariff treatment to -
 - (i) any consignment of originating goods of a customs value not exceeding US\$1000; or
 - (ii) other originating goods as provided under the laws and regulations of the People's Republic of China.
- (b) Waivers provided for in paragraph (a) shall not be applicable when it is established by the People's Republic of China Customs that the importation forms part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the submission of a Certificate of Origin.

46A6.17 Article 19 - Verification of origin

- (a) For the purposes of determining the authenticity or accuracy of a Certificate of Origin, and the originating status of the goods imported from the People's Republic of China, China Customs may –

- (i) request the South African Revenue Service to verify; or
 - (ii) conduct a verification visit to the Republic, when necessary, in a manner to be jointly determined by People's Republic of China Customs and the South African Revenue Service.
- (b) The South African Revenue Service after receiving a request for verification, shall respond to the request promptly and provide a complete and unequivocal reply within six months, from the date of raising the verification request.
- (c) If the People's Republic of China Customs decides to suspend the granting of zero-tariff treatment to the goods concerned while awaiting the results of the verification, the goods shall be released upon submission of guarantee, unless otherwise provided in the domestic legislation of the People's Republic of China.
- (d) If no reply is received within six months, or if the People's Republic of China Customs deems the reply does not contain sufficient information to determine the authenticity of the documents or originating status of the products in question, the People's Republic of China Customs may deny zero-tariff treatment.
- (e) The exporter, producer or manufacturer, who applied for the Certificate of Origin related to the concerned goods, shall not deny any request for a verification visit agreed by the People's Republic of China and the exporting Party. Where consent to such a verification visit is withheld or refused, the People's Republic of China Customs may deny zero-tariff treatment to the goods concerned

46A6.18 Article 20 - Denial of zero-tariff treatment

 - (iii) the Certificate of Origin does not meet the requirement of these rules;
 - (iv) the goods described in the Certificate of Origin do not correspond with the goods actually imported; or
 - (v) the circumstances referred to in Rules 46A6.17(d) or (e) occur.
