How to Update Security Contact Details

You must update your security contact details regularly to protect your information and ensure that you receive important correspondence from SARS. This also helps you to receive one-time pins (OTPs). SARS uses OTPs as an added layer of security which safeguards your information.

eFiling

To update your security contact details, log in to eFiling, go to **My Profile**, and then **Profile and Preference Setup**.

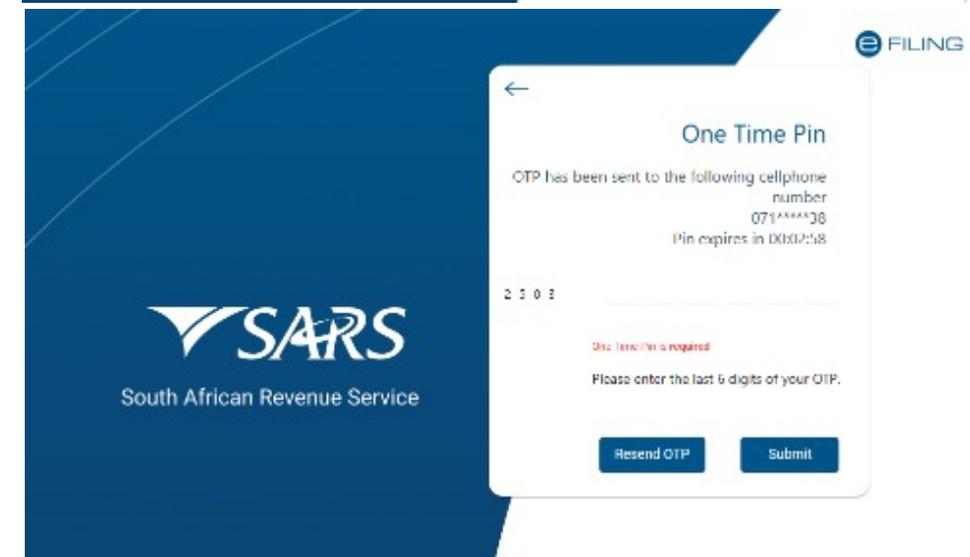

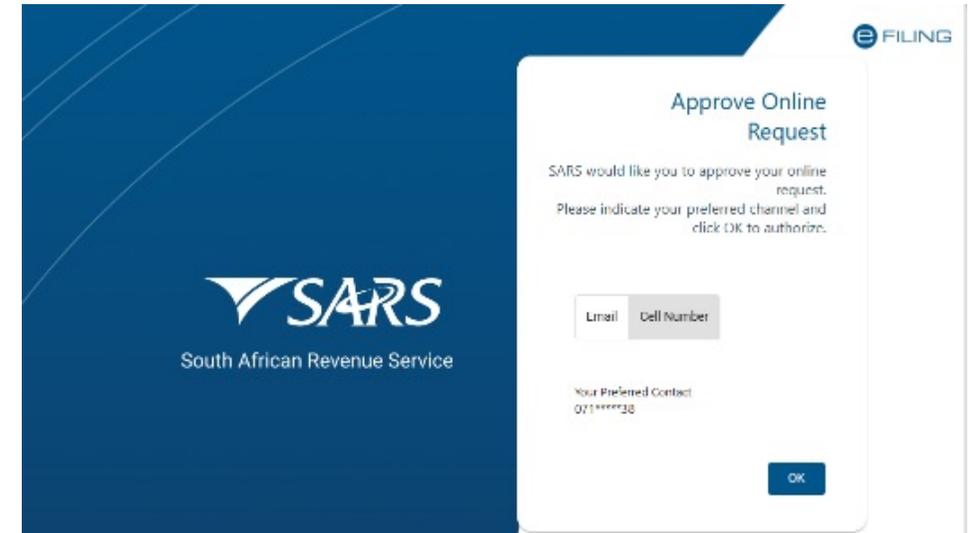

Under security contact details, update your **email address** and **cellphone number**, then click **Update & Save**.

How to Update Security Contact Details

Select your preferred method of communication where you will receive your OTP.

Put in the last six digits of your OTP and click Submit.

Once you have updated your security contact details, you will be routed to the home page.
